BNE Contractors Inc.
440 Sheldon Drive
Cambridge ON N1T 2C1

Dear Chris,

Shortly after purchasing the building we now occupy as our North American Headquarters, your company was referred to us by our contractor as a solution for the factory floors and mezzanines.

We are delighted with the outcome. After experiencing failure of epoxy coatings at various other facilities, your proposal to grind and apply a surface hardener made more sense to me but until now I was only cautiously optimistic. Your field team did exactly what you said they would do and the outcome is nothing short of impressive.

In addition to the first-class appearance, my staff actually enjoys using the floor machine to keep the floor spotless and buffed. I have no reservation in recommending your company and your service to anyone with similar requirements. Attached are a few photos that you are free to use in your marketing.

Best Regards,

Gary Langeman
